

Fabricators

Location	The Dockyard, Pembroke Dock
Industry/Sector	Fabricators/Welders
Job Term	Fixed Term Contract - 3 months
Salary	£11.77 per hour

Company Overview:

Mainstay Marine Solutions is a commercial boat builder based in Pembroke Dock and specialises in building steel and aluminium craft up to 40 metres in length.

Overview:

We are looking to recruit a number of fabricators on fixed term contracts to work with us on an exciting new build project

Main Responsibility:

Fabricators will be expected to work on aluminium module assemblies

Duties include; marking out, assemble structures, shaping, bending and tack welding.

Welders must have held a previous certification in plate welding 3mm < 25mm in aluminium with Mig process.

Skills/Requirements:

Candidates should be:

- Fully qualified and time served with experience within the marine, boat building industry preferably.
- The successful applicants must be prepared to work outdoors, on the waterside on a very regular basis as well as at sea on vessels during sea trials. There will be a requirement to work within confined spaces for long periods of time.
- The ability and desire to work to strict project deadlines is essential and the successful candidates must be strong team players who understand the importance of working as effective team members.
